Nurmi Neo Posterior Walker

Helping kids go the distance

The Nurmi Neo walker by Ottobock helps kids go the distance, with a strong, flexible frame that's designed to promote movement and natural gait. It's one of the lightest frames on the market, but at the same time it offers one of the highest load capacities. The height and depth adjustable grip bars — and a wide selection of accessories — allow the Nurmi Neo to grow and be adjusted to a child's needs.

Quality for life

Nurmi Neo Walker

Freedom of movement, power to achieve

The Nurmi Neo posterior walker assures a high degree of security thanks to its anti-tip bars, reverse-roll wheel locks, and optional swivel wheel locks and friction brakes. In addition, the Nurmi Neo features an optional seat that can be used as needed, and which won't fall down as the child moves forward. Kids and parents like it because it's sporty and fun. Therapists like it because of its endless ability for adjustment.

Features and Benefits

- Sporty design available in two fun colors: Saturn Blue Metallic and Sparkle Green
- Available with three different depth and height adjustable grip bars
 - Grip bar with universal grips can be adjusted to reduce the width between grips
 - Extra high grip bar with forearm supports and vertical hand grips is angle adjustable
 - Grip bar with mini grips is ideal for smaller children because it provides a lower grip height and/or shorter width between grips
- Anti-tip bars provide stability to prevent tipping
- Friction brake applies to the rear wheels to slow forward progression/speed during ambulation. Friction can be increased or decreased by adjusting the interior set screws.
- Caster swivel wheel locks can be locked in straight alignment to help control lateral movement during ambulation. Quick release feature allows for quick unlocking as gait development progresses.
- Fold up seat helps build endurance for ambulation over greater distances
- Storage basket allows personal items to be kept within reach

How to Order

For more information, please contact your sales representative at 800 328 4058, or visit us at www.ottobockus.com.

• Combined gluteal and pelvic supports

• Grip bar with universal grips for grip width reduction

• Grip bar with forearm supports and vertical hand grips

• Anti-tipper
