

# Feeding Chair HEIGHT CHAIR

These two distinctly different chairs, the **Height Chair** and the **2-in-1 Booster Seat**, have both been designed with interaction, socialization, and age-appropriate mealtime experiences in mind. They also provide a great place to play!

Appropriate postural support and positioning of the physically challenged child during mealtime is a key element in the ability to chew and swallow. The adjustability designed into the **Height Chair** and **2-in-1 Booster Seat** allows for

BASE UNIT

B.

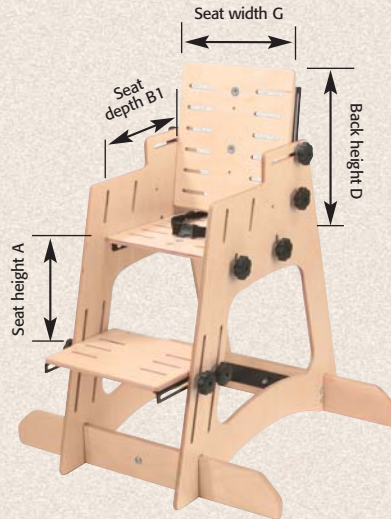

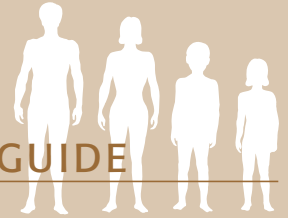

A.
